

## Better Pharma's Portfolio of Businesses: Domestic and International Animal Health Business

- BETAGRO Group has realized the importance of animal health product development. With an aim to improve the standard of livestock production locally and internationally, the Group has established an advanced manufacturing base for veterinary pharmaceutical products as well as supplements for economic animals and pets.
- Since being established on 3rd October 1978, the company's has expanded its production base with new factories in several locations before moving to its new factory in 2006 to meet all internationally recognized manufacturing standards.
- From start to present, Better Pharma has accumulated years of experience and continuously taken its product R&D to a higher level over the past four decades base on the principle of "For a Better Health."
