

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

Universiti Teknologi Malaysia (UTM) and E Life Solutions PLT (ELS) Collaborative Scholarship Programme

This programme is offered through a collaboration between UTM and ELS.

This program invites potential candidates with excellent academic results who wish to pursue their postgraduate studies in UTM.

PROGRAMME:

Master by Research in Electrical Engineering

Doctor of Philosophy (PhD) in Electrical Engineering

Research Topic

Industrial state of the art research defined by ELS in the area of Electrical Engineering

Eligibility and Minimum Requirements

1. Any Nationality from Top 1000 QS Ranking 2020 University
2. Bachelor in Electrical Engineering with Minimum CGPA of at least 3.20 for Master Programme
3. Master in Electrical Engineering with Minimum CGPA of at least 3.50 for PhD Programme
4. Able to write paper in English (Toefl at least 500)

Technical Skill

1. Good knowledge in electromagnetic, lightning, power quality and electrical system
2. Exposure to simulation software such as COMSOL and/or, CST Studio, and/or CDEGS, and/or MATLAB
3. Able to do programming using language such as C/C++/Java/C#/Python

Softskill

1. Highly Committed & Loyal
