# Oligo

Building Indonesia

---

**Oligo Infrastruktur Indonesia** is a newly set-up entity with vision to create world class porto-folios of bankable infrastructure projects especially **Waste Management, Water Transmission, and Renewable Energy**. OII intends to develop and engage itself in various infrastructure investment projects in Indonesia, particularly those in the public and environmentally related sectors through development and acquisitions.

Our vision is to create a stream of co-benefitting infrastructure investments and becoming a strong partner to the Government of Indonesia in generating sustainable growth, while increasing our shareholder's wealth. **Oligo Infrastruktur Indonesia** partners with world-class financing and technologies institutions to create a solid foundation for our investments.

In order to achieve our vision, Oligo is building a young, dynamic, and yet professional team to support our project acquisitions.

---

---
