

Operations Executive (Aquaculture)

Job Type	: Full Time
Job Industry	: Agricultural / Poultry/ Plantation / Fishery
Job Function	: Project Management
Experience	: Fresh Graduates / Less Than 1 Year Experience
Education	: Bachelor Degree - S1

Description

About the Company

Alune combines investment, technology and expertise to change the way aquaculture is financed. We believe that financial, environmental and social sustainability is best achieved when combined together.

You will be working and learning with a superstar team of Indonesian and European colleagues, as Alune executes on its ambitious growth plans. You'll be encouraged to contribute across all areas – we all help each other out.

As a young company, you have the opportunity to make a huge impact on the direction and pace of progress. We operate a flat, non-hierarchical structure so you can chat and learn from everyone in the team. All of our team believe in our core principles of openness, innovation, professionalism, and family.

Responsibilities:

- Analysing and collecting farm data to help us improve our internal systems;
- Learning and then designing scientific advice for the companies management strategies;
- Helping to develop a long-term strategy for Alune and bring unique insights to accelerate growth;
- Using a research/scientific approach to problem-solving and improving farming outcomes;
- Helping to support our farmers with well research ideas;
- Reporting and analysing our farm investments on a daily and weekly basis.

Requirements

Essential:

- You have a scientific degree (Water quality or Aquaculture is a bonus!);
- Self-starter who thrives under pressure and enjoys a variation;
- You're flexible and adaptable;
- You're ambitious and want to help build something impactful;
- You have the ability to be proactive and take the initiative;
- Fluency in English - speaking, and writing;
- Fluency in Bahasa Indonesia;
- Detail-oriented and passionate about over-delivering;
- Excellent organizational and time management skills;
- Comfortable driving in Indonesia. Hold a valid driving license (SIM C/A)

Desirable:

- You're an inventor and innovator at heart. You're always finding new ways to solve problems;
- You have a University degree (in a scientific subject);
- You've had hands-on experience at a business, running a society or on a side project (priority if it was in Aquaculture).
- Our team works remotely, with our core operations in Yogyakarta;

- You must be living in Indonesia. The role may require relocation around Indonesia;
- The role will require to travel up to 2 days a week. Travel expenses paid in full by Alune;
- Salary offers are decided based on location, experience and skills.

Benefits

- Our team works remotely, with our core operations in Yogyakarta.
- The role may require relocation around Indonesia.
- The role will require to travel up to 2 days a week.
- Travel expenses paid in full by Alune.
- Salary offers are decided based on location, experience and skills.
- Equity and bonus structures are on offer for the right candidate.
