

Web3 Research & Analysis Intern Opportunity @ AEXELE. [Global Remote]

we are.

A new Creative Collective breed. At the intersection of business and creative consultancy, we devise and build relevant and digitally empowered marketing and creative solutions to reach and inspire digital native consumers; *within an ever-connected age.*

ABOUT AEXELE | We shape creative minds and ideas relevant to the connected age.

AEXELE is a boutique brand consulting and creative agency focused on providing brands with marketing and communications solutions. From brand strategy, creative communications development and management, to innovative technological concepts and production, as well as effective content publishing, we approach communications and branding starting with compelling storytelling considerations that are relevant to consumers first and foremost.

We are seeking **Research Analyst Interns for Web3: Blockchain, NFTs, DAOs, Meta and Crypto**

We are always seeking diverse profiles and talents to join our internship program. We highly value all of our interns and go the extra mile to make sure you receive a learning experience that fits your career interests and aspirations. You will learn how to perform in a dynamic and entrepreneurial, yet professional environment.

What's more, this remote internship offers a guided entryway into understanding and navigating the hot new concepts of Web3; which includes blockchain, NFTs, metaverses, DAOs and DeFi. You'll be tasked to do various research and analysis on a wide array of topics to develop a well-rounded knowledge in the most forefront fields, which are poised to completely disrupt major industries, organizational structures and community interactions. You'll be asked to formulate your own ideas and perspectives on the industry as you report, discuss and brainstorm with the team towards identifying and leveraging new business opportunities.

If you are curious and have a strong growth mindset to 'learn the unknown' with professional drive, a "yes can do" attitude, excellent research and analytical skills + are flexible to work the "Web3 Way" (remotely with team members around the world in different time zones)...then we would love to hear from you!

Learn more about our strategic creative communications agency at <http://www.aexele.com/en/>
